

Fighting Skill Training Plan – Boxing + Kickboxing (Muay Thai)

Goal: Build speed, power, reflexes, and endurance for striking combat.

17 Weekly Fighting Training Schedule (Integrated into Project TITAN)

Key Training Methods & Benefits

1. Boxing Drills (Hands & Defense)

- ☒ Shadowboxing – Improves speed, footwork, and form.
- ☒ Heavy Bag Training – Increases punching power & endurance.
- ☒ Speed Bag – Develops hand-eye coordination & rhythm.
- ☒ Slip & Roll Drills – Enhances head movement & defense.

2. Kickboxing (Muay Thai) Drills (Leg Strikes & Knees)

- ☒ Low Kicks & Roundhouse Kicks – Builds leg strength & balance.
- ☒ Knee Strikes – Strengthens core & close-range combat skills.
- ☒ Push Kicks (Teep) – Improves distance control & attack setups.

3. Strength & Conditioning (Explosive Power & Stamina)

- ☒ Jump Rope – Builds endurance & agility.
- ☒ Sprint Drills – Enhances fight stamina.
- ☒ Core Training (Planks, Russian Twists) – Improves punch & kick power.

Expected Progress in 8 Weeks

-  4 Weeks: Improved footwork, faster punches & kicks.
-  6 Weeks: Stronger strikes, better defense, increased stamina.
-  8 Weeks: Noticeable power & speed increase, effective counter-attacks.

Would you like to include sparring practice (if you have a training partner or punching mitts)?
